## Provider Profile

---

Information provided by the provider describing their agency:

SARAH Tuxis is a local Arc and a member chapter in both the Arc Ct and the Arc US. We are proud to be an organization that puts high value on the participation of the individual/family in a person's life planning. We provide support to individuals with cognitive disabilities and their families, including residential, family support, futures planning, school inclusion, and advocacy services.

Currently, the agency supports persons with a wide range of abilities living in group homes, apartments and family homes along the Connecticut shoreline. Our mission is to build creative supports which allow children and adults with disabilities to be fully included and valued members of their community. We strive to support each person we serve in such a fashion that they truly live enviable lives.

SARAH Tuxis has been an innovator in the development of responsive individual plans for each person we support. We have been creating individual budgets and personalized support plans since 1990. We put great value in our staff's ability to be creative and responsive to individual needs and dreams. We support our staff by believing we are a learning organization that continues to seek better ways to address complex needs.

SARAH Tuxis works closely with not only the Connecticut State Department of Developmental Services but we will actively work with other community organizations to create partnerships that forward true community based supports. We have worked with our DDS South Region and the Area Agency on Aging and other community organizations to provide more responsive supports for our seniors. We have also worked with a wide range of shoreline arts organizations to be able to provide innovative arts activities to those who wanted to do so. This "Unified Arts" Program won national recognition by The Arc US.
